

**A Company For Litigation and Legal Consultation**  
Established in 1932

## OUR MISSION

To build long term relationship with clients by maintaining international best practices and offering effective solutions adapted to each clients' needs

## **THE FIRM**

I&D were established by Charles Chalom in 1932 as Maitre Charles Chalom. Mr. Chalom was the head of the Bar Association of the mixed courts. In 1952, Messrs Hassan & Hussein El Ibrachy and Said Dermarkar entered into partnership with Mr. Chalom creating Chalom, Ibrachy & Dermarkar. Upon Mr. Chalom's departure in 1956, the name was changed to Ibrachy & Dermarkar (I&D).

## **THE APPROACH**

I&D continuously develop itself while continuously being inspired by its tradition as set by its original founders. It encourages innovation and strives to grow with all its young talents in an environment of competition within collegiality.

## **THE EXPERTISE**

I&D act as the legal counsel to much local and multinational business operating in Egypt. It provides legal advice in the general corporate area as well as in the various specialized areas including investments, industry, transport, labor, taxes and social insurance.

I&D has extensive experience in advising its clients in; Banking Sectors, Capital Markets, Down-Stream Energy Sector as well as in the high-tech industries. I&D has also developed a unique expertise in advising its corporate clients in the airline and communication related businesses.

## **Banking, Financing and Infrastructure**

A sample of the deals we were involved in includes:

- I&D acted as international counsel in connection with the rating and international bond issue of a major energy company. The project remains to be under way during 2010.
- I&D acted as local counsel in advising a major European Bank on an export credit facility granted to a major international producer of plastic materials. The project remains to be under way during 2010.

- I&D lead one of the major PPP project carried out in 2007 between a multinational company and the Public Transportation Authority in Alexandria. The project was initiated to ameliorate the public transportation in Alexandria with different aspects including the equipment manufacturing, the installation and the professional formation as well.
- I&D represented international lenders who arranged a USD 480 million debt facility for a B.O.T project in Egypt. The facility was to be used to finance the development of a new container terminal within the Port of Damietta.
- I&D acted in 2008 as the lead counsel representing the Egyptian satellite company in connection with a major credit facility arranged by COFACE for the financing of a next general satellite to be launched in 2010.
- I&D represented the international lenders in the largest private power investments in Egypt to date. The project consists of the development, construction and operation of two 682.5 MW steam generation plants (Port Saïd East & Suez Gulf). Our client was financing the project with a total amount of US\$395 million for the construction and operation of two power projects aimed at boosting Egypt's electricity output.
- I&D advised a major international bank on its \$400 million bridge loan to an Egyptian mobile telephone network operator.
- I&D advised a major international lender and a syndicate of Egyptian and international banks on the \$570 million, secured, multicurrency term loan to an Egyptian mobile telephone network operator.
- I&D advised a major international lender on the \$100 million mezzanine bond financing raised by the Egyptian mobile telephone network operator.

## Capital Markets

I&D developed a preeminent capital markets practice. It has been involved in sophisticated transactions. Our lawyers have advised deals in more than \$45 billion of capital markets transactions in the last few years.

Landmark deals include:

- I&D advised a major cement operator in the purchase of the international cement operation of an Egyptian company.

- I&D advised a major bank in its purchase of a major brokerage house.
- I&D advised the purchasers of the operation of a major pharmaceutical business in Egypt.
- I&D advised and supervised the sale by shares in mobile telephone network operators.
- I&D advised an international ceramic company in its purchase of a controlling interest in a company in Egypt, in one of the then largest transactions done on the stock exchange.
- I&D advised an international bank in relation with a publicly offered bond by an Egyptian company.
- I&D advised an international telephone network operator on the purchase of the remaining stake in a subsidiary in Egypt.
- I&D advised an investment bank on financing the first management buyout in recent Egyptian history, in relation to a company operating the food industry.

## **International Arbitration and Complex Litigation**

I&D have a long and expansive experience in arbitration working with major arbitration institutes and rules including: ICC, AAA, ICSID, DIAC, CRCIRA, and LCIA.

A sample of the international arbitration matters in which I&D is involved:

- Acting in \$200 million ICSID arbitration between the Egyptian Government and a US Corporation.
- Acting in an ICC arbitration between one of the global powerhouses in electronics and electrical engineering and its local distributor in Egypt.
- Representing a major global petroleum producer, as a defendant, in an ICC arbitration regarding breach of an agency agreement.

- Represented the Egyptian Radio and Television Union (ERTU), as a defendant, in a \$50 million AAA arbitration regarding the broadcasting of the Egyptian Satellite Channels in the USA. The award was rendered in favor of ERTU.
- Represented a major Scandinavian petroleum services company in its EGP 60 million claim against an Egyptian joint venture company affiliated to Egyptian General Petroleum Corporation (EGPC) before Cairo Regional Center for Commercial International Arbitration (CRCICA).
- Acted in an arbitration involving a global supermarket chain in an ICC arbitration involving cross-border insolvency issues.

Our team also handles complex litigation which incorporates multi-jurisdictions, complexity and interrelationship of multiple issues, multiple parties, massive documents and data production. In such type of litigation, there is no substitute for engaging litigators with the requisite knowledge, experience, judgment, institutional capacity, and, increasingly, foreign language skills, to defend the company in every forum and on every front. Complexity requires absolute coordination between the team members within I&D as well as with litigation teams outside of I&D.

A sample of complex litigations in which I&D is involved:

- Advising two French companies in relation to local proceedings for the revocation of the privatization agreements of publicly held cement production companies in Egypt. Complexity and sensitivity of such litigations require absolute coordination between the team members as well as with litigation teams of outside consultants.
- Participating in the trial team representing a leading French company in its disputes related to industrial production licenses.
- Participating in trial team representing one of the largest professional service companies as a defendant in a business tort claim incorporating multi-jurisdictions.
- I&D led long negotiations with the Minister of Finance on the clay fees imposed on cement producing companies. I&D on behalf of one of the largest cement

companies in Egypt successfully reached a fair resolution to rectify the error in Paragraph (19) of the State Development Fees Law. The resolution was fortified by an explanatory memorandum that was published in the official gazette, which resulted in saving our client an amount of 100 Million EGP to be reflected as upside in its budget for this year.

## Intellectual Property Rights

Our specialized team includes consultation lawyers advising on all aspects of intellectual property law including related commercial issues, and trial lawyers experienced in litigation and enforcement actions.

We organize our intellectual property services into two main categories:

- Conventionally:
  - Counseling
  - Enforcement and Litigation
  - Registration and Prosecution
  
- Strategically:
  - Intellectual Property Audits and Due Diligence
  - Intellectual Property Licensing and Commercialization
  - Intellectual Property Management and Research
  - Intellectual Property Litigation

## Mergers & Acquisitions

I&D is recognized as one of the leading law firm in the Egyptian M&A legal market. The firm was involved in the most significant cross-border deals that had occurred in strategic industries in Egypt. A sample of those deals includes:

- Construction Sector: As local counsel, I&D represented a major cement operator in what remains the largest merger and acquisition in the history of Egypt. The deal was worth US \$15 billion
- Gas & Oil Sector: I&D restructured the Egyptian operations related to the merger of what is currently the largest energy company in the world. This included the setting up of innovative legal procedures which were innovative and remain a model in the area of merger and acquisition. Since then, I&D remain closely connected with the operation of this large entity.
- Food Manufacturing: I&D represented a major US food company in its acquisition of the remaining 49% shares of an Egyptian subsidiary owned by a Kuwaiti company.
- Pharmaceutical Sector: I&D advised a major Egyptian pharmaceutical target company in the sale to a major international purchaser.

## Oil and Gas

I&D has a long experience in the field of Oil & Gas as I&D acts as the exclusive legal counsel of ExxonMobil Egypt SAE for more than 25 years. I&D has provided ExxonMobil Egypt SAE with legal support in all fields and practices of law such as general corporate, banking and finance, Intellectual Property, negotiating and drafting agreements, general litigation and a host of other legal and regulatory issues.

I&D as well provided legal services and support to a number of multinational Oil & Gas companies such as: Hudson Petroleum, Dana Petroleum, Caithness Petroleum Limited, Vegas Oil, Scomi Oil Tools Egypt and Kelco Oil Field Group on a wide range of legal practices and areas including negotiating with the government, handling complex litigation and advising on a regular basis on the general corporate, employment, banking and finance matters and other legal matters.

Samples of the deals in the oil and gas sector include:

- I&D advised one of the global leading technology licensors in a clean breeze project regarding the upgrade of the technical facilities of a petroleum refinery in Egypt. The said mentioned project aims to introduce: design, construction, maintenance and operation techniques in relationship to three process units.
- I&D advised a major oil company, along with other companies, in its purchase of fuel facilities in TB3 terminal from Cairo Airport Company. The facilities allow the purchaser to supply jet fuel in TB3.
- I&D acted on behalf of an LNG Project in Daimetta.
- I&D represented one of the bidders seeking to purchase interests in the West Delta Deep Marine LNG project.
- I&D continuously remain to be involved in negotiations of oil and gas exploration concession agreements as well as farm-out agreements.
- I&D represented a major multinational company in its divestment in Egypt for a transaction value of 800 Million EGP.
- I&D restructured the Egyptian operations related to the merger of what is currently the largest energy company in the world. This included the setting up of innovative legal procedures which were innovative and remain a model in the area of merger and acquisition. Since then, I&D remain closely connected with the operation of this large entity

## **Telecommunications, Media & Technology**

I&D is currently the international council of the Egyptian Radio & Television Union. I&D is also the legal counsel of the Egyptian Satellite Company (NILESAT). This preeminent position in the media business puts I&D at the forefront of the media, production, broadcast and transmission expertise in Egypt. This position roots itself in the extensive experience that I&D has in the communication sector. This experience includes:

-

- &D represented a major multinational in the negotiations and drafting of it a project that was the bedrock in the development of the Egyptian telephone industry.
  - I&D acted on behalf of NILESAT regarding a credit facility arranged by Coface for the financing of its next-generation satellite ordered from Thales Alenia Space and Arianespace.  
The satellite will be NILESAT largest well equipped with Ka-band transmission.
  - I&D acted on behalf of an Egyptian ISP in selling its activity to Telecom Egypt.
  - I&D was the local legal advisor for the arrangers in the intended privatization of Telecom Egypt in close co-ordination and co-operation with an international law firm. I&D conducted a due diligence review on the company's documents, including real estate, litigation status, loan agreements, supply agreements, licensing agreements, interconnection agreements, and other relevant documents. I&D reviewed and drafted offer and listing documents for the local Public Offering.
  - I&D advised an international telephone company on the Egyptian aspects of their New York Stock Exchange listing as well as the sale of their shares in an Egyptian telephone network operator.
-
